

APPENDIX A-29

MANAGEMENT INDICATOR CODES

1. Number of Characters: One.
2. Type of Code: Alpha or Numeric.
3. Explanation: These codes are system originated and maintained. They are used to process DLSC registration of users and are also used in the Item Management Coding (IMC) process. They are applied to NSNs in the Item Intelligence File (IIF) and, when applied, become an element of data for the NSN record. Application will be limited to Services and other Agencies.

Listings which reflect IIF data (appendices F-89 and F-146) will show these codes under legend captions, MGT IND and IN-PROCESS CODES. These two legends are associated with the Users segment of each NSN record. Printing arrangement, placement, and explanation are provided by appendix F-89.

4. The following codes are assigned:

<u>CODE</u>	<u>DEFINITION</u>
*	In-Process to be deleted.
1	In-Process for IMRC 2 as a result of IMC.
2	In-Process for IMRC 3 as a result of IMC.
3	In-Process for IMRC 2 as a result of DLSC Input.
4	In-Process for IMRC 3 as a result of DLSC Input.
5	In-Process for IMRC 1 or 7 as a result of DLSC Input.
6	In-Process for IMRC 0 as a result of DLSC Input (Does not apply to Services).
7	In-Process for IMRC 4 as a result of DLSC Input.
8	In-Process for IMRC 4 as a result of IMC.
9	In-Process for IMRC 5 as a result of IMC.
N	In-Process for IMRC 5 as a result of DLSC Input.
R	In-Process for IMRC 9 as a result of DLSC Input.
A	Manager recorded with IMRC 2. IMC has been classified.
B	Manager recorded with IMRC 3. IMC has been classified.
C	Manager recorded with IMRC 2. IMC has not been classified.
D	Manager recorded with IMRC 3. IMC has not been classified.
E	Manager recorded with IMRC 1. IMC not applicable.
F	Agency recorded with IMRC 0.
G	Manager recorded with IMRC 4. IMC has not been classified.
J	Manager recorded with IMRC 3. IMC not applicable. Item is DoD Managed.

<u>CODE</u>	<u>DEFINITION</u>
L	Manager recorded with IMRC 2. Manager was previously re-corded with IMRC 3 with classified IMC. Illegitimate DLSC action changed status.
M	Manager recorded with IMRC 3. IMC not applicable. Item is GSA Managed.
P	Manager recorded with IMRC 4. IMC has been classified.
S	Manager recorded with IMRC 5. IMC has been classified.
U	Manager recorded with IMRC 5. IMC has not been classified.
V	Manager recorded with IMRC 9. IMC not applicable.
W	Another DSC recorded with IMRC 0. In-Process to change re-cordation to this DSC.
X	Another DSC recorded with IMRC 1. In-Process to change re-cordation to this DSC.
Z	Manager recorded with IMRC 7. IMC not applicable.
